AIG Energy Differentiators

Specialist expertise

- Substantial underwriting, claims and engineering expertise and capacity for many years
- Delivering bespoke solutions for clients' core businesses and fringe exposures

Captive Fronting

- Can offer alternative risk, indemnity and captive fronting solutions
- Support clients in building a long-term, sustainable risk management framework

Multinational

- Drawing on 30 years+ experience managing the world's most complex multinational Energy insurance programmes
- Access to locally admitted coverage in 200+ countries and jurisdictions

Wider Solutions

- Renewables team (Construction and Operation of PV Solar, Off and Onshore Wind and Battery Energy Storage (BESS))
- Power and Utilities team – Bioenergy, Geothermal, Hydro and Nuclear

Complimentary Lines

- Coordinated insurance solutions across: Third Party Liability (Construction & Operation), Marine Cargo, Environmental Impairment (Construction & Operation), Terrorism and D&O

Energy Loss Prevention

- Experienced risk engineers delivering expert risk assessments, benchmarking and loss prevention services on clients' sites
- Extensive data modelling capabilities

AIG Energy Claims Promise

The AIG Energy Claims Promise affirms that our dedicated team of claims experts will mobilise in rapid response to a covered event and, after coverage is confirmed, will advance our policyholders up to 50% of our share of the agreed estimate within 7 days, giving them the immediate working funds they need for damages, repairs, clean-up costs and extra expenses.

What does it cover?

- Property damage/repairs
- Clean-up costs
- Extra expense/additional increased cost of working

The estimate is to be agreed between the policyholder, broker and the AIG representative, based upon reasonably available information. This payment is made on an unallocated basis.
